## Why Choose Home Companions Senior Care?

### *Trusted and Experienced*

“We know home care, and it’s dear to our hearts!” We know what it takes to deliver the best service to our client’s. Home Companions Senior Care knows that combining the best caregiver with the best client care service, and add affordability with reliability and dedication is the secret to our success.

Kellie Keith, Owner  
Certified Senior Adviser®

### *Our Philosophy:*

We will not send a caregiver into your home that we would not feel comfortable with caring for us or our dear loved ones.

*Here are further reasons why using Home Companions Senior Care, a licensed, bonded and insured home care agency, is the right choice for you and the ones you love and care about:*

### *Simplify with Our Full-Service:*

Many home care providers offer limited services and in some cases they are not able to provide hands-on-care service such as assisting with toileting or bathing and their type of service is not covered by your long-term care insurance. This may cause unnecessary stress and you’ll feel overwhelmed with unattended needs.

Because Home Companions Senior Care is a licensed home care agency, we can provide many necessary services that are covered by many long-term care insurance policies; you will have access to all necessary care, including your choice of Medicare skilled care referrals!

### *Getting Established:*

You’ll want to meet us before we send a member of our care team to competently meet your preferences and expectations! Our Care Manager will visit you or your loved one and listen to concerns. We offer a no cost, no obligation, and [in-home care assessment](#) to help you evaluate your needs and design an individualized care plan.

*We will never miss a scheduled visit:*

Home Companions Senior Care can provide you with a variety of aides for back-up should your primary caregiver be unavailable, we will be ready and we'll never miss a visit.

*Always Available to You!*

You can call on us 24/7 days a week. Using our service you'll enjoy peace of mind knowing when you call Home Companions Senior Care after regular business hours, on the weekend or a holiday, your call will be answered. Should you call and hear our voice mail please, do not be discouraged, that is our way of letting you know, you're important to us, we don't want to miss your call, we want to know that you've called, and your call will be returned within 30 minutes guaranteed!

You Can Rely on the Integrity of Our Entire Devoted Care Team Guaranteed!

*Scrupulous Screening* – Home Companions Senior Care takes the hiring process very seriously. We work tirelessly to recruit and retain individuals with good moral character; digital finger printing to ensure no criminal history; review state and local records to scrutinize any reports of misconduct.

*Handling Your Money-* Caregivers may be expected to use your money for grocery shopping, picking up prescriptions or other necessary tasks. You can rest assured; your caregiver will be responsible, honest and trustworthy.

*Employee Payroll and Benefits-* Our entire care team is paid directly through our agency so you never have to worry about keeping track of hours, calculating payments to Medicare and Social Security, or paying federal or state unemployment tax or paying for liability insurance and workman's compensation, should an accident happen, they're covered!

*Value Driven Loyalty-* Our value driven work ethic ensures our clients receive competent service and personal attention from our entire care team. Our Care Manager communicates with the client on the telephone and comes to the home during a care visit. Our ethic has earned us an excellent reputation and the favor of physicians, health care providers, business professionals and most importantly seniors who may not have considered the idea of in-home care.

## All Home Care is NOT CREATED EQUALLY

If you or your loved one is experiencing challenges due to the effects of certain health conditions or illnesses, Home Companions Senior Care offers Specialty Care to help support limitations and offset some of these effects. Specializations include dementia, diabetes, cancer, and more. Specialty Care plans are designed to address the specific needs of the individual not the illness.
